

Outreach Program

Individuals who are eligible for services in our Outreach Program at Hearth must be at least 50 years old and currently homeless. These individuals should be able to provide a homeless certificate from the shelter they are currently staying at.

Our Outreach workers provide housing search and advocacy services as well as general case management around health, behavior health and basic needs. Outreach workers also provide six months of stabilization services once a client is housed.

Hearth Outreach Workers are also available at area homeless shelters
